- 4:45 - Evaluation & Adjournment

**** Dr. Margaret Herridge** is an Associate Professor in the Department of Medicine at the University of Toronto and a Clinical Scientist, Co-Principal Investigator researching outcomes and rehabilitation after a critical illness. Her landmark research papers include:

Herridge MS, Tansey CM, Matte A, Tomlinson G, Diaz-Granados N, Cooper A, Guest CB, Mazer CD, Mehta S, Stewart TE, Kudlow P, Cook D, Slutsky AS, Cheung AM and the Canadian Critical Care Trials. Functional Disability Five Years after Acute Respiratory Distress Syndrome. **N Engl J Med 2011; 364:1293-304.** (**Lead article**)

Herridge MS, Cheung AM, Tansey CM, Matti-Martyn A, Diaz-Granados N, Al-Saidi F, Cooper AB, Guest CB, Mazer CD, Mehta S, Stewart TE, Barr A, Cook D, and Slutsky AS for the Canadian Critical Care Trials Group. One-Year Outcomes in Survivors of the Acute Respiratory Distress Syndrome. **N Engl J Med 2003;348:683-93.** (**Lead article**)

Physical Therapy Speakers

Gary Beauchamp Dip MLT, BScPT (Multi Organ Transplant PT)

Nathalie Côté BScPT, BScHK Critical Care PT)

Anne Kuus BSc PT, Clinical Resource Specialist (Thoracic Surgery PT)

Vincent Lo BScPT (Critical Care PT)

Bansi Shah BSc PT (Multi Organ Transplant PT)

Course Objectives:

The 2- day course is designed for graduate physical therapists & students who wish to establish & improve physiotherapy skills using evidence based practice approach with Cardiorespiratory patients.

The program will review assessment techniques for the acute Cardiorespiratory patient through didactic and small group sessions. Oxygen Therapy and Early Safe Mobility for the Critical Care Patient will be reviewed in both lecture and lab format.
